

DEVANTE

11 YEARS OLD

Congrats newly elected Student Council member! Quite the proud accomplishment!

Devante has always wanted an animal of his own. He demonstrated great responsibility with his gold fish and recently became the proud owner of an adorable hamster named after Chance the Rapper. He has hopes to one day have a guinea pig (or 2) join his little animal family!

Devante is a serious young man who also has a silly side that comes out with people he knows and trusts the most. He is quite intelligent, asks great questions, and is always looking for the next thing to learn about.

People are surprised by his excellent memory and he has so much fun gathering interesting facts.

He has a lot of passions including rock collecting

(agates galore and a wonderful cross rock that he found by the river is a prized possession!); the Carolina Panthers (so passionate that he recently colored his hair to match his favorite teams colors); and Legos-he loves using his creativity to build things and even did a Kid Connection segment at Lego Land in the Mall of America! Devante loves to be kept busy and some day hopes to join different sports teams-including baseball and football (of course!).

He thrives on predictability, structure, routine and concrete expectations.

He has enjoyed farm living in the past but is growing to love city living and connecting to his cultural heritage. Devante is looking for a solidly strong, enthusiastically committed and extensively resourceful family to call his own.
